## II. Standards of communication

To allow the communication with KTR to as many business partners as possible, you will reach us by manifold communications protocols:

### **OFTP** Direct connection via ISDN via the OFTP protocol

Odette communication profile	
Odette ID (SSID)	O0013008469KTR-GMBH
Odette ID (SFID)	O0013008469KTR-GMBH
Password	*****
Software	EDICOMM/DAXWARE GLI Huengsberg AG
Availability	24 hours
ISDN	+49 5971 8074207
Transmission code	ASCII

**SFTP** by SFTP client via Internet via the Secure File Transfer Protocol

**FTP** by FTP client via Internet via the File Transfer Protocol

**X.400** via telebox system of Deutsche Telekom (German Telecommunication Provider)

**E-Mail** Here the data are expected as an enclosure of an e-mail

The development of the Internet allows business partners who might have a low amount of transactions to exchange data and reproduce standard business processes via Internet.

KTR support the development described above by linking various platforms of integration and suppliers' portals in the Internet:

- [www.myopenfactory.org](http://www.myopenfactory.org)

- [www.crossgate.de](http://www.crossgate.de)

- [www.opentrans.de](http://www.opentrans.de)
