1. Application data

Type of application: winder drives Roller conveyors

capping machines Other _____

Driving speed: _____ rpm

Driven speed: _____ rpm

Required slipping torque: _____ Nm

Min. / max. operating temperature: _____ / _____ °C

Period of slipping: _____ sec

Cycle duration: _____ sec

Driving shaft: Shaft diameter: _____ mm

 Length: _____ mm

Driven shaft: Shaft diameter: _____ mm

 Length: _____ mm

Anticipated demand: _____ pieces

2. Remark

3. Documentations and specifications by QM

Material quality certificate: _____

Initial sample test report: _____

Other: _____
